EVENING EDITION.

ATLANTA, GEORGIA:::::::::MAY 26.

☞ Ex-Attorney General Black had his arm crushed en-route to New Orleans.

☞ The communication of "Mechanic" is on our table. It is a rule of the press that in all cases the name of the author of an article must be furnished to the Editor. "Mechanic" will have to comply with this rule to have us insert his article.

☞ Gov. Bullock has at last returned home. We hope that he will now turn his attention to the true interests of the State, and build up, as far as his influence goes, the material prosperity of Georgia. We saw that he figured at the Railroad Convention in Cincinnati, and put in a good word for the State; should he continue to work on that line, it would not be long before he would win the respect of those he has insulted by his insane and radical political notions. If Gov. B. can only bring himself to think and act as the Governor of the State and not of a party; to respect the opinions of those who desire nothing but peace and prosperity, and who are laboring for that end, there need be no ill feeling between himself and the people. But to suppose that Georgia is going to allow herself to be negroized or radicalized, is not to be expected.—*Southern Recorder.*

We commend the above admirable advice to Gov. Bullock as timely and just words for his consideration.

Georgia News.

WHEAT and oats are extra fine in all this region of country, especially on red land. Cotton looks puny hereabouts, and some fields look as though the little plants had concluded to go back under ground. Corn, though small and backward, generally looks healthy and trying to do its best Fruit prospects are tolerable, though the yield will not be heavy. Irish potatoes, wherever planted, are doing unusually well this season.—*Griffin Star.*

THE season at Indian Spring is about opening, and promises to be unusually gay.—*Forsyth Advertiser.*

THE cold snap has increased the panic among cotton planters, and many regard it as fatal to their prospects. Others, particularly those planting on red lands, are still hopeful, and are confident that a few warm days will dissipate the gloom.

WE are reliably informed, by those who cannot be mistaken, that the genuine Cotton Caterpilla has made its appearance in both Baker and Mitchell counties. We understand they are already numerous in the cotton on one plantation some twenty miles below this, on the river.—*Albany News.*

STILL COOL.—The nights and mornings are still cool, and are doing some damage to the cotton crop in this section by causing it to die out, and it is feared many will not have a good stand when it does turn warm.—*Eatonton Messenger.*

DR. JAMES T. PATTERSON died at Savannah lately, under suspicion that he committed suicide. Since then his wife, Mrs. Catharine A. Patterson, has been indicted in the Chatham Superior Court for his murder. Dr. Geo. Patterson, his brother, is at the bottom of it. He had the body taken up and chemically examined. He claims that Mrs. Patterson was the wife of J. H. Talbird, of Alabama, and has never been divorced. Mrs. Patterson is very beautiful, and has many friends who assert her innocence.—*Sav. News.*

THE Ogeechee prisoners are now on trial in Savannah. It will be remembered that Sheriff Denver went out with a posse to put down the negro-rising on the Ogeechee last fall. The negroes were too strong and robbed and maltreated some of the party. Captain Green and Dick Edwards were convicted of "Robbery by Intimidation."—*Ibid.*

CROPS in Lee and Sumter counties are good.

MEMPHIS BRANCH RAILROAD.—The Stockholders of the above road met at the office of W. S. Cothran & Son, and organized by the election of the following gentlemen as Directors:

Alfred Shorter, W. S. Cothran, S. P. Smith, A. Griffith, D. S. Printup, C. H. Smith and Samuel Noble.

W. S. Cothran was elected President of the Board. In the election of Directors, we think the company have acted wisely, as we recognize in them gentlemen of experience, and who have the interest of the city at heart.

About $30,000 has been subscribed, and we have no doubt but that $50,000 will be raised by Saturday.—*Rome Commercial.*

Unsettled State of Affairs in Georgia.

PRESIDENTIAL INTERFERENCE ASKED FOR.—GEN. BUTLER'S SANGUINARY REMEDY.—Senator Sumner, Gen. Butler and other prominent radical Congressmen have been urging the Secretary of War and the President to adopt some vigorous policy in Georgia which will bring the malcontents down there more effectually to their senses. The immediate cause of the attention bestowed by Sumner and Butler upon Georgia is the numerous murders which are reported as having taken place there recently. They complain that nobody has been caught and nobody punished. Both the President and the Secretary of War have promised to look into the matter, but they leave it to the military authorities. Sumner says if he were President he would have the military authorities preserve order there or he would go down to Georgia and do it himself. Butler thinks the military commander does not go the right way about it. If he were the military commander in Georgia and a political murder was committed he would issue a proclamation setting forth that unless the murderer was delivered up within a certain time, with the evidence to convict him, he would destroy every green thing for a space of ten miles square around where the murder was committed. A course like this, Butler thinks, would put an end to the murders and insure the punishment of the murderers. Sumner would be more mild; he would content himself with taking hostages.—[illegible]—*N. Y. Herald.*

Our State Correspondence.

COVINGTON, GA., May 25, 1869.

Mr. Editor: Your correspondent takes great pleasure in stating that the farmers of Newton county are alive to duty, and are at work in real earnest. Providence, in many respects, seems to be smiling upon them; and while we write there is every appearance of an abundant yield in the grain line. The wheat crop is indeed encouraging; upon every field where it has been scattered, it stands in thick masses' beautiful to the eye. The farmer is jubilant, and almost invariably replies, "'Tis good enough." Corn is doing finely—a little backward on account of the incessant rain, which prevented it from being planted at the usual time. The only regret we have is, there is not enough planted. But cotton, we are sorry to say, is not looking so well; rain and want of sunshine have made an impress upon it which we fear time will not erase. It has began to turn to a golden color, which is indicative of death. We have known in one or two instances farmers to plough up their cotton and plant corn in its place. We fear many more will yet wish they had done likewise. We have heard it stated that the farmers of this county are in debt for five hundred thousand ($500.000) dollars worth of guano. You see that the false idea of raising cotton and but little else, has prevailed to a great extent in this section, and should the crop fail, this debt will be almost intolerable. But let us have an abundant yield and our deliverance takes place—our coffers will be filled to overflowing, and no longer will debt have dominion over us.

But to another, and we think not less important, theme. We think that we can say truthfully that the county of Newton affords more inducements to manufacturers than any other in this portion of the State. We recently paid a flying visit to what is known as "Cedar Shoals." This grand work of Nature is situated three miles southwest of Covington. For years there has been erected on its falls a factory by no means to be ignored, now principally owned by Col. Enoch Steadman, a thorough going gentleman. As we looked upon its huge falls, and listened to the roaring of its murmuring waters, we could but sigh for capital to aid in bringing all its power under the control of man.

The scenery is unsurpassed for symetrical beauty; as far as the eye can reach you feel its beautifying influence. Only a short distance from this factory can be seen a newly constructed dam, extending across the river, but not a building can be seen erected near it. From sheer necessity the erection of the factory has been postponed to "a more convenient season." Here is every inducement to capital; the foundation is laid—nothing needed save a few thousand dollars to send in motion numberless spindles. We are proud to hear that the Agent has recently been called on by a Northern capitalist who wishes to aid in developing this expanding mill. We bid him and all such men thrice welcome. More anon.

A Valuable Georgia Invention.

Judge J. P. Freeman, of Dalton, has added to the long list of inventions another valuable improvement in car-coupling, which he has recently patented. A few days since we had the pleasure of examining a model of this invention, and were delighted with its beauty as well as its simplicity. Since Railroads have been in operation, hundreds of persons have lost either their lives or limbs, by being crushed between the cars in the act of coupling them.

It has long been a wonder that some method more safe to the operator has not been adopted. Since examining Judge Freeman's invention, it is so efficient, safe, and simple, we wonder that it was not the one originally adopted. By this invention much time and labor may be saved in making up trains, as the conductor or any train hand can superintend the coupling with perfect freedom from danger, and can couple up a train in one-third the time required by two hands by the present plan.

The adoption of this new invention would also save much in the way of car-building, as no provision would then have to be made for the safety of the coupler as present. This invention involves only a slight change in the common draw-head or bumper, having cast on the upper side of it two hooks, one in front of and higher than the other. To each of these bumpers is attached a large elliptical clevis, which, when not in use, may hang under with the bumper, or be turned back against the car. By a very simple device, this clevis is thrown over the rear back on the opposite bumper, effecting the coupling by being set for that purpose, or by pulling a rope at either side or on top of either one of the cars to be coupled together. By one method or the other, there can never be any failure to couple cars of different heights where the difference is not too great, are coupled as easily without any change of couplings as of the same height. This new bumper can also be used in connection with the old-fashioned one by the use of the link and bolt. This wonderful invention needs only to be seen to be appreciated. It is not complicated with any springs, triggers, or other machinery, which have rendered most inventions of this kind impracticable and worthless. This, so far as we are able to judge, is perfectly simple, efficient, and not liable to get out of order.

We can but express the desire to see it put to work upon all the Railroads in this country.

This coupling is now in use on a number of the cars on the Alabama and Chattanooga Railroad, where it is working well. A couple of them are also on trial on the E. T. and Ga. R. R., and give satisfaction to all who have observed them so far as heard from.

ANTICS OF A MAD BOHEMIAN—BUTLER AND THE MONKEYS—DEATH OF "HANS PATRICK LE CONNOR."—Jacob L. Bowman, known as a humorous and very erratic writer for the press under the *non de plume* of "Hans Patrick Le Connor," died at the Sisters' Hospital last night. For some weeks past Bowman had given himself up to dissipation, and under its influence had demeaned himself in an eccentric manner. At one time, with a plaster of paris cast of General Butler's head for his subject, he held fourth from the court house steps to a crowd upon the pavement. At another, with a monkey perched upon his shoulder, and a sort of helmet upon his head, he promenaded Fourth street, attracting the gaze of the people. At another still, with the same monkey, and a large knife in his hand, with a savage quotation from some tragedy, he would frighten the timid almost out of their wits. Being well known to the police, he was allowed to indulge his idiosyncracies so long as no harm came of it. Many thought him demented, and his untimely demise sustains the correctness of the idea.—*St. Louis Democrat.*

ABUSE OF SENATOR SUMNER.—Senator Sumner is beginning to receive anonymous letters from England, full of personal abuse and similar in tone to those he read from the South in the days of slavery. The following is a specimen:

London.—Sir—I enclose an article from one of our papers, which contains a proper view of your speech. For myself, allow me to say that, in my opinion, you are a thieving, cunning, Yankee scoundrel.
Yours, respectfully,
AN ENGLISHMAN.

WASHINGTON, May 24.

The representatives of the Cuban insurgents state that they have received trustworthy intelligence to-night that a battle was fought at Puerto Principe ten days ago, in which the insurgents were victorious, the Spaniards losing over a thousand in killed and wounded.

DR. MARY WALKER

appeared at the State Department to-day, and demanded of Secretary Fish that she be appointed Secretary of Legation to Sickles. She was asked if she spoke Spanish, to which she replied—"Does Sickles speak Spanish?" The Secretary said the presumption was that, as Minister to Spain, he did.

To this Dr. Mary vehemently declared that it was not a question of languages at all, but a question of woman's rights. The Secretary got rid of her, after another confab, by saying that before she was appointed she must obtain Sickles' consent.—*Courier Journal.*

Letter from Beecher.

The great Puritan, Henry Ward Beecher, having been informed of a report that he had in his possession the missing records of St. Michael's Church, Charleston, writes to a friend the following characteristic letter:

BROOKLYN, April 21, 1869.

* * * You ask me or rather you tell me about the story afloat in Charleston that at my visit there in 1865, I seized and made off with the records of St. Michael's Church. What on earth does any one suppose I wanted of Church records? I am not an Episcopalian, nor a historian, nor a collector of old books. No, I never *took, touched* or *saw* the records of St. Michael's, or of any other Saint's Church. Nor did I commit sacrilege in removing any article of Church property. I have no taste for relics, and least of all, for stolen ones. I took nothing away from Charleston but a heavy heart—that a city of my own country should be so utterly desolated by war! Yes, there was one that I brought away, now that I bethink myself. An officer of a colored regiment brought to my house and presented to me an *old family Bible,* which had been saved from a burning house on some plantation in the country. I entered the facts, as narrated to me, on the fly-leaf, thinking that after peace came, the family might, perhaps, be happy to regain this venerable old book. (printed in 1679). I copy the entry *verbatim:* "Davis' plantation, near the Middleton plantation, on Ashley river, twenty miles from Charleston, saved from burning by an old negro. Presented to H. W. Beecher by Lieutenant Holland N. Batcheller, Charleston, April 15, 1865."

If the family, or any member of it, desires the book, it would give me great pleasure to return it to them—none the worse, I trust, for a short sojourn at the North.

If any good will come of it, you may print any or all this—which I suppose accounts for the story that I *stole* church records.

Truly yours,
HENRY WARD BEECHER.

CORRESPONDENCE WANTED.—We invite correspondence from all parts of the State on practical matters—railroads, manufactures, inventions, crops, legal decisions, improvements, minerals, progress, etc. Be brief, condense down, and write on one side of the sheet. We wish to aid all the material interests of the country.

TO BUSINESS MEN.—This paper affords you unparalleled advantages for advertising. Its daily circulation is increasing rapidly. It goes to more readers than any other paper in the city or section. It is steadily increasing in influence and favor. Additional expense will be put upon it to improve and perfect it as the news-medium of the State. When a merchant pays for an advertisement, the more it goes to the more he is repaid for his expense.

Work.

In looking over the political field the practical Southern Democrat finds little of fruit to cull from the agitation of political issues. The questions of the era decided for several years, a dynasty in power opposed to him and his theory of Constitutional government, and the institutions of his social and civil polity settled against his views and wishes, political discussion is too barren of success for him to waste upon it powers and energies, that directed upon feasible matters, can be productive of individual benefit and public progress.

He has little left, politically, for him to do, save, to keep his principles bright and unforgotten, to preserve his faith untarnished, to hold aloof from the party corruptions of the day, to maintain a steady watch upon the govening administration, and approving its good features, hold up its misconduct to wholesome, careful, just criticism.

The question then arises, what is the policy for him to pursue for personal interest and public benefit? Rake up old bitterness and keep it alive? Waste thought upon dead issues, and do nothing but write chronicles of old defeats? Rest satified with misfortune, and hug despair to his bosom. Chant dirges and muse in inglorious depression?

Such a course as this is not manly, it is not practical, it is not christian.

Such possibilities as lie before the South, with well directed labor, the world has never yet witnessed. With our grand capacities, the future is luminous with achievements and dazzling progress, if we but WORK for them. Not trigger, not hope, not talk, not beg, not wait, bnt WORK for them.

The South, before the war, had the finest gentlemen in the world, but those gentlemen lacked the full appreciation of labor. Placed above it, they undervalued its dignity. The surrender left our people impoverished as a whole; and work became the necessity of the hour, and is now. Labor has leaped to its full prestige, under the pressure of a grim need. It stands robed with an imperial dignity. All the false notions of it, born of a luxurious wealth, have dissolved like bubbles; and the proud, strong Southern character glows with a healthy recognition of the value, the honor, the nobility of work.

The situation is full of hope for us. The rising generation North are effeminate, fast, enervated. Rolling in riches, scorning the hard toil that made their fathers well-to-do, they bid fair to plunge into deeper degeneracy.

Hence do we say, that it is to our Southern young men, hereditary gentlemen, educated, schooled in a tough adversity; thrown back upon the unaided resources of a brave, resolute manhood; placed where patience, self-reliance and thoughtful industry are fostered, and wilfully working out individual redemption and national disenthrallment—we say it is to them the country must look for its finest supporters in the future.

The genius of labor—skilled, determined, nervous, untiring labor—must inspire the whole country. The kid-glove must be discarded. Its delicate texture don't suit the hard grapple with iron fortune. All classes, all vocations, must work. The word must become the Southern motto. It is the agent to travail out a magnificent destiny. It is better than whining complaint, than deep despair, than truckling subserviency, than bare dependance, than fanciful expectation, than weak retrospection, than hot bickering over dead issues.

☞ The New York Herald has a heavy leader, clamoring, not only for the union of the Presbyterian schisms, but of all the denominations together in one grand brotherhood.

We opine that it would be the most rotten combination of bloated, overgrown impiety that the world has ever seen. The very system of sectarian divisions preserves a healthy activity in religious matters. The moral stagnation that would ensue if everybody thought alike, and the consequences that would result from the vast aggregation of power in the leaders of the immense and unwieldy concern would ruin the world, morally.

The Herald's idea is neither practical nor sound; and its realization would prove a desperate detriment.

The Herald thinks because it can get up a good newspaper, that it can improve on Divine Providence in the general moral government of mankind.

We would timidly suggest to it to stick to the newspaper business.

WHY IS IT?—Why is it that when Democrats are murdered, there is no hue and cry North that law is inefficient, and personal rights in danger in the South?

WHAT IS THE REASON?—In Northern States a dozen crimes occur to where one does in Georgia. Why is no effort made to reconstruct their civil governments?

☞ The Brunswick Appeal says that its subscription list is filling rapidly. It certainly deserves it.

Atlanta's Scared Refugees Thinning Out--The Slander Mill Run Ashore.

The Macon Telegraph contains a communication from Albany stating that A. R. Reid is not a citizen of Dougherty county, but of Spaulding county. He has a farm in Dougherty, now occupied by negroes, and no one will molest him there. Reid is said to have a shop in Atlanta.

The Telegraph also has a letter from Mr. T. J. Speer, who says that he has been in Pike county twice this year, met no violence and apprehended none. He says he never saw a more peaceable and orderly people in his life.

The Tribune had better copy up quick or the proofs will get so voluminous it won't be able to print them all.

The Telegraph also says it has received a letter from Turner, the negro, in which he denies emphatically the remarks attributed to him by the Tribune. He has written to the Tribune. That fair-minded sheet seems to find no room for correction of its slanders upon Georgia.

Is it a premedicated exclusion of Southern justification from its columns for political purposes?

INDICTED.—The Journal and Messenger (Macon) says that in the Bibb Superior Court the Grand Jury have found a true bill against J. Clarke Swayze, the editor of the Radical paper published there, for High Misdemeanor. It is predicated upon an incendiary article that appeared in his paper some weeks ago; and is based upon that section of the Code that forbids any person to circulate any writing that inculcates resistance to lawful authority, or insurrection or conspiracy against the citizens. The penalty is the Penitentiary from five to twenty years.

English Opinion of Reverdy Johnson and Charles Sumner ---- A Quick Celebrity.

Correspondence N. Y. Herald.

The appearance, manner and ability of Reverdy Johnson have conciliated all who have encountered him in social life; but his numerous speeches have given him more notoriety and popularity in England than any American Minister ever before obtained. His overthrow at home cannot be fairly attributed, as time will show, to his speechmaking here, or even to the inadequacy of the treaty he made under instructions from the State Department. It is pretty certain that the Senate meant to give a parting kick to the dynasty of Andy the First, and more especially was it aimed at the retreating form of the sage of Auburn. Sumner has turned the hostility of the Senate to splendid advantage, for he has sprung into a renown in England that throws all our public men utterly into the shade. People here have forgotten Grant and Sherman, and seem to think that the President and Congress are all cowering at the feet of Sumner, the Jupiter Tonans of the hour. The Times says that he, more than any other man, brought on the late civil war, and having got through with that, now turns his attention to another of a still more fearful character. In short, John Bull is settling into the belief that the New England manufacturers have put Sumner forward to precipitate a war with England that will secure them, if successful, the markets of the world. Some here think, and Bright among them, that Sumner is aiming at the Presidency. At all events, Sumner has distanced all contemporaries in the political world at home, and if he is not the greatest man of them all, he has become, at least, the biggest of bugaboos.

AT IT AGAIN.

Sumner Reappears in an Old Character.

[From the New York Times]

Senator Sumner has a remarkable habit —we suppose we must call it a habit—of receiving threatening letters immediately after he delivers "great speeches," and of course he always hands them over promptly to the newspapers for publication. In other days the Southerners used to send him threatening letters; then the rebels used to send them to him; then the Ku Klux used to send them to him; then the friends of Andy Johnson (during impeachment times) used to send them to him; and now it seem he is receiving them from enraged Englishmen. If he was not a man in whom we could always trust, we might suspect that he himself was the getter-up of these letters. Such letters add greatly to the importance of a "great speech," and then they never seem to be dangerous in the slightest degree.

WHERE WOMEN VOTE.—Women possess the right to vote more extensively than is generally supposed. In Austria women can vote as nobles, in their corporate capacity as nuns, and as tax-payers. In some cases, however, they vote by proxy. In Hungary, up to 1848 widows and single women who were landed proprietors possessed the right to vote. In Canada, as in several of our States, women are allowed to vote for and serve as school trustees. In the British Australian colony of Victoria, women universally assumed the right to vote about four years ago, having found that the law had been so framed as to permit them. In Sweden, chiefly through the exertions of the late Fredrika Bremer, an indirect right of voting was, in 1862, granted to all women possessing specified property qualifications. In Italy a widow, or wife separated from her husband, may vote if she pays taxes. Also in Holland single women possessing property are entitled to vote on all questions likely to effect its value. In many towns in France women possess and exercise the right to vote in municipal affairs.—*Courier-Journal.*

SYMPTOMS OF THE OLD MAID.—"When a woman begins to drink her tea without sugar—that's a symptom. When a woman begins to read love stories a-bed—that's a symptom. Whenever a woman gives a sigh on hearing of a wedding—that's a symptom. When a woman begins to say that she's refused many an offer—that's a symptom. When a woman begins to say what a dreadful set of creatures men are, and that she would't be bothered with one for all the world—that's a symptom. When a woman begins to have a cat at her elbows at meal times, and gives it sweetened milk —that's a symptom. When a woman begins to rub her finger over the chairs and tables to see if they are dusty—that's a symptom. When a woman begins to go to bed with her stockings and a flannel night cap on—that's a symptom.

COMFORTABLE.—The outside city property of the Hon. Eugene Casserley, United States Senator for California, has been assessed at $2,685 700, $35 425 worth of which has been appropriated to public reservations. Mr. Casserley also owns very large tracts of land in Santa Cruz and San Matteo counties, besides valuable pro'uctive real estate in the very heart of San Francisco. Mr. Casserley is the John J. Astor of the Pacific State.

Col. Woodruff's Funeral--The Presbyterian General Assembly.

MOBILE, May 26.—The funeral of Col. Woodruff, late President of the Board of Trade, was the largest ever witnessed in Mobile. The body lay in state in the Board of Trade rooms until 4 o'clock when it was removed to the Methodist Church followed by the Board and the Presbyterian Assembly in a body. All stores were closed at three o'clock out of respect to the deceased. The crowd at Church was immense. The people turned out en-masse to witness the funeral.

In the General Assembly, the greater part of the morning was spent in discussing a plan for the evangelization of the blacks, Dr. Girardean made an able speech in favor of the plan which was recommended. It provides that when practicable the Presbyteries may organize seperate colored Churches, to be supplied for the present with white Pastors, and ruling elders of their own color; the Pastors of our white Churches to supply these pulpits as far as possible; that suitable colored exhorters may be employed under direction of the pastors; that when colored candidates for the ministry show themselves for ordination, they shall be ordained with the understanding that they shall henceforth be ecclesiastically separated from us. Our ministers and people are urged to efficient labors among them.

☞ The Radical party have brought about a broken and most deplorable state of things in this once peaceful but now distracted Union. To show the people what the state is, and to charge home to the party, with sharp and meaning language, responsibility therefor, is the office of an independent journal; and, so far as the Intelligencer is concerned, to borrow the thought of an able critic of the past, we venture to say that from the height of infamy on which we have placed the record of the Radical party it will not easily be taken down.—*National Intelligencer.*

BISMARCK'S INTRIGUES.—An interesting letter from Pesth, published in one of the Paris journals of this morning, states that the Prussian Chancellor is losing ground in that quarter. From the moment in which he thought fit to excite the Roumanians against the Hungarians, and to seek to embroil the latter with Austria, public sentiment turned against him.—*Correspondent N. Y. Times.*

☞ A poet thus describes how it snowed, and what he did:

Softly, softly, while we slept,
Came the snow-flakes gently down—
Came and sorrowfully wove
A shroud of white for the buried town;
We rose with feeling grand and intense,
And hired a middle-aged Anglo-African
Shovelist to clean our sidewalks off for fifty cents.

PARTIAL SUCCESS WORSE THAN ABSOLUTE FAILURE.—Hooking a big fish that breaks your line. Buying a horse that breaks your neck. Making a marriage engagement with a flirt. Getting half seas over. Drawing an elephant in a raffle, without the rest of the menagerie. Seeking the delights of the marriage tie and getting a high-mene-al tie-ger.

☞ A woman who has a good figure does not require too low a dress to make one aware of it, but a badly made girl can not suppose that undressing herself will prove what the bare fact denies.

MISCEGENATION — AN ENAMORED CAUCASIAN PENS A FOND NOTE TO HIS DUSKY LOVE IN JAIL—AVAUNT! YE FORTUNE TELLERS!—Captain Anderson, of the City Police, hands us the following love-sick epistle, that was left in the calaboose by the ebony recipient. It seems that the dark maiden took up a whiff of jealousy in connection with her moderate Ku Klux Republican lover, W. B. H., and her mother and sister. She regarded him as a grasping Lothario, whose libidinous greed roared after the whole family. Much delighted with her, he probably tried to play the pleasant role of Brigham Young on a small Mormon scale. She gently remonstrated with the remainder of the harem, and a polite interchange of pugilistic courtesies ensued. The result was that she landed sadly in the city calaboose, with the luxury of indefinite confinement, and absence from the fond partner of her Liberian bosom, and the affectionate cause of her bellicose woes, unless she could squeeze a horrid V, of the greenback persuasion into the plethoric coffers of the city treasury.

Alas! must it be told? The Amazonian —yet jealous lassie—was impecunious. No V cuddled in her pocket. History doth not tell us that she ever had a pocket to be mocked with empty pecunious vacuity.

In this dread hour of the kinky one's need, her tender swain comes to the rescue of his fond Martha, with the following epistle:

> Dear Martha
>
> I have sent some money by Frances to get you out. The result of this Ku Klux effusion was that ye dusky Charlotte left her "pent-up Utica" a sadder and a wiser woman; and hereafter, when her sorrowing Werter seeks to relieve the surcharged sympathies of his Mormon soul in a manner exemplified by the lamented Foy, and approved of the Tribune's slander mill attaches, she will submit with philosophical fortitude, born of her touching experience.

☞ It was rumored that a Chinese official of high rank in Pekin, in a fit of anger stabbed the French Ambassador, the Count de Lallemand, in the face; and the flag over the French Legation had been hauled down.

AN ATTRACTIVE DISPLAY.—We are promised to-day a more than ordinarily attractive display in the grand procession of Colonel Ames' New Orleans Circus Company and Menagerie through our principle streets. Starting from the public square at 10 A. M. They claim to be able to present a startling feature in the cavalcade, never before witnessed or attempted —that is assigning a position in the retinue to a Royal Bengal Tiger and Brazilian Leopard unconfined, and a pair of Lions that seat themselves unfettered at the feet of a beautiful lady and are borne harmlessly in the pageant. The scene of taking these ferocious monsters from their dens will be done in public at the hour of starting, and as it is a novelty of the rarest character will be well worth seeing. Of the performances given at the exhibitions of the combination we as yet cannot speak knowingly, not having witnessed them; but never has a troupe appeared among us carrying with it so favorable a reputation for real excellence and attractive novelties.

They exhibit to-day at 2 o'clock and to-night at 8. The doors, however, opening one hour before.

OUR JOB OFFICE.—The reputation of this department of our establishment has been secured, we are glad to know, and is still maintained by the quality and style of the work turned out. We take a pleasure in announcing that our facilities and resources have been augmented by the addition of the latest improved styles of presses, type and furniture, which in the hands of skillful workmen will be used with that taste and cunning that have heretofore distinguished their handiwork. Mindful, too, of the pressure of the times, all work will be done at a cost that shall be approved by even the exacting customer.

A full stock of paper, cards and materials always on hand.

SCARCITY OF MONEY.—This subject is attracting attention, and it is being written about. The query is, "Why is money dear?" One theorist says it is locked up in Government bonds. Another says, the apparent rewards of speculation being greater than those of industry, money is withdrawn from the production of wealth to the purchase of wealth already produced and to gamble in its rise and fall.—*Courier-Journal.*

DR.
SIMMONS' LIVER REGULATOR OR

Medicine for Dyspepsia, Headache Jaundice, Costiveness, Camp Dysentery, Sick Headache, Chronic Diarrhoea, Affections of the Bladder and Kidneys, Fever, Nervousness, Chills, Diseases of the Skin, Impurity of the Blood, Melancholy or Depression of Spirits.

Most of the ailments here enumerated have their origin in a diseased liver, which is the most prevalent affection in this country, and as in many cases the patient is not within the reach of a physician, it requires that some remedy should be provided that would not in the least impair the constitution, and yet be active and safe. That such is the character of the SIMMONS REGULATOR there can be no doubt, which the testimony of hundreds will establish.

SYMPTOMS OF A DISEASED

LIVER.

Pain in the side. Sometimes the pain is felt under the shoulder blade is mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness, bowels in general are costive, sometimes alternating with lax; the head is troubled with pain, accompanied with a dull, heavy sensation. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred when few of them existed, yet examination of the body after death has shown the Liver to have been extensively deranged.

It should be used by all persons, old and young, whenever any of the foregoing symptoms appear. It is a purely vegetable compound, is not injurious to the most delicate constitutions, and will keep the liver in healthy action if used properly.

Persons living in unhealthy localities may avoid all billious attacks by taking a dose occasionally to keep the liver in healthy action.

Regulator

For children complaining of colic, headache, or sick stomach a teaspoonful or more will give relief. Children, as well as adults, eat sometimes too much supper, or eat something which does not digest well, producing sour stomach, heart-burn, or restlessness; a good dose will give relief. This applies to persons of all ages.

Many persons, from eating too much, are restless at night, or in day time fidgety, wool-gathering, can't understand what they read, can't keep their thoughts on any one subject so as to reason well, or become fretful. One or two tablespoonful will give relief.

Jaundice.—Take enough Regulator after eating each meal to produce one full action from the bowels every day.

Pregnant ladies will find sure relief from their headache, costiveness, swimming in the head, colic, sour stomach, restlessness, etc., etc.

DR. JOHN BULL'S
Great Remedies.

DR. JOHN BULL,
Manufacturer and Vendor of the Celebrated
Smith's Tonic Syrup,
FOR THE CURE OF
AGUE AND FEVER,
—OR—
Chills and Fever

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and and Southwestern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

Bull's Worm Destroyer.

To my United States and World-wide Readers.

I have received many testimonials from professional and medical men, as my almanacs and various publications have shown, all of which are genuine. The following letter from a highly educated and popular physician in Georgia, is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of BULL'S WORM DESTROYER:

VILLANOW, Walker Co., Ga., June 29, 1866.

DR. JOHN BULL—Dear Sir: I have recently given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished for effect. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary, they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine direct from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great majority of the regular line M. D.'s, but I see no just cause or good sense in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned its effects first, and secured the sole right to secure that knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, that purport to cure all manner of disease to which human flesh is heir. Please reply soon, and inform me of your best terms. I am, sir, most respectfully,
JULIUS P. CLEMENT M. D

Bull's Sarsaparilla

A Good Reason for the Captain's Faith.

READ THE CAPTAIN'S LETTER AND THE LETTER FROM HIS MOTHER.

BENTON BARRACK'S, Mo., April 30 1866.

DR. JOHN BULL—Dear Sir: Knowing the efficiency of your Sarsaparrilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case.

I was wounded two years ago—was taken prisoner and confined for sixteen months. Being moved so often, my wounds have not healed yet. I have not set up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than in anything else. I wish that that is genuine. Please express me half a dozen bottles, and oblige.
Capt. C. P. JOHNSON,
St. Louis, Mo.

P. S.—The following was written April 30, 1866, by Mrs. Jennie Johnson, mother of Captain Johnson:

DR. BULL—Dear Sir: My husband, Dr. C. S Johnson, was a skillful surgeon and physician in Central New York, where he died leaving the above C. P. Johnson to my care. At thirteen years of age he had a chronic diarrhœa and scrofula, for which I gave him your Sarsaparilla. IT CURED HIM. I have for ten years recommended it to many in New York, Ohio and Iowa, for scrofula, fever scores and general debility. Perfect success has attended it. The cures effected in some cases of scrofula and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a spurious article, hence his writing to you for it. His wounds were terrible, but I believe he will recover.
Respectfully, JENNIE JOHNSON.

BULL'S CEDRON BITTERS
AUTHENTIC DOCUMENTS.
ARKANSAS HEARD FROM.
Testimony of Medical Men

STONEY POINT, White Co., Ark., May 23, 1866.

DR. JOHN BULL—Dear Sir: Last February I was in Louisville purchasing drugs, and I got some of your Sarsaparilla and Cedron Bitters.

My son-in-law, who was with me in the store, has been down with rheumatism for some time, commenced on the Bitters, and soon found his general health improved.

Dr. Gist, who has been in bad health, tried them, and he also improved.

Dr. Coffee, who has been in bad health for several years—stomach and liver affected—he improved very much by the use of your Bitters. Indeed, the Cedron Bitters has given you great popularity in this settlement. I think I could sell a great quantity of your medicines this fall, especially of your Cedron Bitters and Sarsaparilla. Ship me via Memphis, care Rickett & Neely.
Respectfully, C. B. WALKER.

LUXURIOUS TRAVELLING.

A Rosy Picture of Home on the Wing--Seductive Wandering.

From Corrrespondence Western Paper.]

In this letter I would refer to the perfect comfort I experienced while travelling from Chicago to St. Louis a few days ago, on the Chicago, Alton and St. Louis Railroad, leaving the former at 8:05 A. M., and arriving at my hotel in St. Louis by 10 P. M., the same day. Travelers are all aware of the increasing accommodations that are being added to our various roads emanating from Chicago, but to those who are unacquainted with the management of the road I particularly refer to now, I would say that if they want to have real ease and comfort while travelling, they will experience it on the C. A. & St. L. R. R. Leaving home hurriedly, I had but little time to breakfast, which I need not say created an unpleasant inward sensation; but on my arrival at the train I was ushered into the 'Tremont Dining Car.' Immediately after starting, to my extreme pleasure, a staff of attentive waiters appeared on the scene and stood ready to take my order for breakfast. Many more passengers appeared from that car and those ahead of us with smiling faces at such an opportunity to appease their appetites. Breakfast over, the car was converted into a beautiful drawing room, where we could lounge and take such ease as only a Pullman's car can give; and from the solidness of the road, scarcely perceived our speedy motion to our destination.—There being abundant facilities both to read and write while on the journey, my time was pleasantly occupied until, on announcement of dinner, the car was again transformed at the front part into a dining room, our orders given, and a sumptuous meal spread out with all the delicacies that one could desire, served in the best possible manner, really hot, and by the best selected waiters that Chicago could produce, and what is pleasant withal at as moderate a price as you can be served at a stationary restaurant. It is worthy of note that such cleanliness and order are never exceeded by the best hotels in the country, and certainly no better cooking is accomplished. One would think that the amount of viands put out of sight during one hour by the hungry passengers could scarcely have been stowed away in the space devoted to the kitchen, but on investigation I found a well regulated cooking apparatus and capacity for feeding four times as many as they were then providing for, and in that space a couple of cooks busy at work with all the room they needed, one desirable feature being the perfect ventilation to carry away the savory smell that we always would rather hear tell of than realize. Rest again was resorted to, till supper was served, after which the lamps were lit, and the balance of my trip I spent in smoking my cigar in the saloon provided in these beautiful cars; in cogitating how I could best make known to the world the pleasures of traveling on this road, and calculating the amount of pleasure that tourists will experience on their anticipated trip over the Pacific Railroad (so soon about to be opened) by the aid of these cars. I am informed that over forty of Pullman's cars will be placed on the new road to San Francisco. I have dwelt so much on the pleasures of the travel and the cars that I find I have no room to speak of the fine country through which we passed, which for its richness few roads surpass.

JOSH BILLINGS ON "YEWKER."—This ill bred game of keards is about 27 years of age.

It was first discovered by the deck-hands on a Lake Ery steamboat and handed down by them to posterity in awl its juvenile buty.

It is generally played by persons, and owes much of its absorbingness to the fact that you can talk, and drink, and chaw, and cheat while the game is advancin.

I have seen it played on the Hudson River Railroad, in the smoking car, with more immaculate skill than enny where else.

If yu play there, yu will often hold a hand that will astonish yu, 4 queens and a 10 spot, which will inflame yu to bet 7 or 8 dollars, that it is a good hand to play poker with, but yu will be more astonished when yu see the other fellah's hand, which, invariably, consists of 4 kings and a 2 spot.

Yewker is a mulatto gaim, and don't compare to old sledge in majesty, enny more than a game of push pins to a square church raffle.

I never play yewker.

I never would learn how out ov principle.

I was originally created cluss to the Connektikut hue in New England, whar the game of 7 up or old sledge was born and exists in all its prestine verginity.

I play old sledge to this day in all its nativ fierceness.

But I won't play any gaim, if I know mi karacter, whar jack will taik an ace, and ten spot won't count for game.

I won't play no sich a kind of gaim out uv respect to old Connektikut, mi nativ State.

JOHN A. LOGAN IN THE PULPIT.—What Think you? Major General John A. Logan is posted to deliver a sermon from the Methodist pulpit in Carbondale as soon as business will allow his return home. A CHALLENGE TO THE WORLD!

WE challenge the world to produce a better or a stronger recommendation for any article for any purpose than the following:

NOVEMBER 1ST, 1868.

We very cheerfully unite our testimony in favor of the great merits of the valuable disinfectant manufactured by PROF. DARBY, and known as **Darby's Prophylactic Fluid**. From the reputation of Prof. Darby as a scientific gentleman, from our own knowledge of this preparation, and from the general esteem in which it is held wherever known, we have no hesitation in recommending it as one of the most valuable household articles with which we are acquainted.
